Better Health Information for Better Health Policy

INDEPTHStats Call to Member Centres

As you are all aware, we are again gearing up for the next INDEPTHStats update which as agreed is scheduled (annually) for 1st July. Although we have in place a participatory process for data consistency and plausibility checks (<http://www.indepth-ishare.org/indepthstats/>), as always we are readily available to assist you with data issues and plausibility reviews.

INDEPTHStats

Every member HDSS of INDEPTH is encouraged to submit data to INDEPTHStats.

Currently we have two groups:

1. Those already on INDEPTHStats are expected to provide the relevant 2012 indicators for review and eventual update on July 2015.
2. Those who are not yet on INDEPTHStats are strongly encouraged to join now. Please follow the procedures on the website (<http://www.indepth-ishare.org/indepthstats/>) for submission of data first for the plausibility checks and eventual upload onto INDEPTHStats

We are currently reviewing the indicators for a number of centres that have already submitted. We look forward to receiving your data template and working with your team to prepare for the eminent update on 1st July 2015.

With thanks for your usual cooperation
